TSP143IV SK Repositionable Label Printer
Elevate Operational Efficiency

The TSP143IV SK Sticky Label Printer is the latest addition to Star Micronics' acclaimed TSP100 series. Combining modern design with advanced technology, this compact printer is geared for versatility, connectivity, and efficiency. As the smallest sticky label printer on the market, the TSP143IV SK enhances business operations with eco-friendly removeable linerless labeling solutions, future-proof connectivity, high-speed printing, and comprehensive warranty support.

The TSP143IV SK prints repositionable, linerless sticky labels used in a variety of sectors, such as food and beverage, delivery, takeout, and wash-and-fold laundry services. Sticky labels adhere to virtually any surface and can be easily removed and reapplied, leaving no residue. They effectively track orders throughout the preparation journey, boosting drive-through and takeout order precision and enhancing the bottom line.

Linerless repositionable labels also present an environmentally friendly alternative to traditional silicon-lined labels or tape, as liner-free yields more labels per roll and lessens waste. In addition, the compact design of the TSP143IV SK provides businesses with a clean, fresh look while freeing up valuable counter space.

Plus, this next-generation sticky printer offers future-proof connectivity with popular options such as Android

Open Accessory (AOA), a USB/LAN dual interface, a four interface option USB/LAN/WLAN/Bluetooth, and dual-band WLAN connectivity, providing maximum flexibility when connecting to any network.

The TSP143IV SK is also Cloud Ready, making it compatible with Star Micronics Cloud Services for real-time device monitoring and custom-designed promotions with PromoPRNT, among other services. It's also compatible with StarPRNT, supporting Star's new StarXpand SDK for React Native, iOS, and Android, making integration versatile across devices.
With a high-speed printing capability of up to 180mm/s, an internal power supply, and a guillotine auto-cutter with "drop-in and print" paper loading, the TSP143IV SK sticky label printer ensures robust performance in high-demand environments.

Features:

- Prints eco-friendly, repositionable linerless sticky labels
- Future-proof connectivity: USB, LAN, WLAN, Bluetooth & AOA
- High-speed printing at 180mm/s
- Cloud Ready with CloudPRNT
